Objective

Objective: A highly skilled and results-driven developer with 3 years and 8 months of experience in web and mobile application development. Proficient in using React and Next.js for web development and React Native for mobile app development. Currently contributing to IBM India Pvt Ltd as a Mobile Apps Developer, with a passion for creating innovative, user-centric applications and a strong focus on performance and scalability. Seeking to leverage expertise in frontend and mobile development to contribute to impactful projects and further grow professionally.

Experience

- IBM INDIA PVT LTD** 19 April 2024 -
Software developer
"React Native Developer at IBM India Pvt Ltd, experienced in building cross-platform mobile applications with optimized performance and user-centric design. Skilled in creating reusable components, integrating APIs, and managing state efficiently. Focused on delivering seamless experiences across iOS and Android."
- Quess corp limited** 26/06/2023 - 31/12/2023
Software developer
Frontend developer skilled in React and Node.js, crafting seamless user experiences with responsive, high-performance interfaces. Proficient in building dynamic, interactive web applications, leveraging modern JavaScript frameworks. Focused on delivering clean, maintainable code and optimizing functionality for smooth, engaging user interactions.
- ASP TRADE INKS PVT LTD** 21/01/2021 - 24/06/2023
Software developer
Frontend developer with experience in React and Node.js, working from January 2021 to June 2023. Started as a Junior Software Developer, advancing to Senior Developer, focused on building responsive, scalable applications. Specialized in creating interactive, high-performance web interfaces with clean, maintainable code.

Education

- Datta meghe college of engineering** 2021
Bachelor in engineering
9.3 cgpa

Skills

- Typescript
- JavaScript
- Node js
- React js
- React native
- Next js
- Redux toolkit
- aws practicenar
- REST API

Projects

- **IBM Client**

At IBM, I am working on a mutual funds project, developing a client application focused on providing seamless mutual fund management and investment experiences for users.

- **RTO android application**

At ASP Tradelinks, I developed an RTO app for managing product returns and a product history app, leveraging React Native for the frontend and Node.js for the backend to ensure efficient product tracking and management.

- **Vioma diagnostic application**

At Quess Corp Limited, I developed the Vioma Diagnostic application, enabling customers to book blood tests and other diagnostics while connecting them with doctors through a dedicated network channel. Built with React Native and Node.js, the application is available on the Play Store.

- **Vioma lifescience.com**

At Quess Corp Limited, I also developed ViomaLifeScience.com, a platform for booking blood tests and health-related devices. Utilizing React for the frontend, Node.js for the backend, SQL for the database, and hosted on AWS, the platform offers a seamless experience for health-related bookings.
